Golden Bear Football Season Tickets

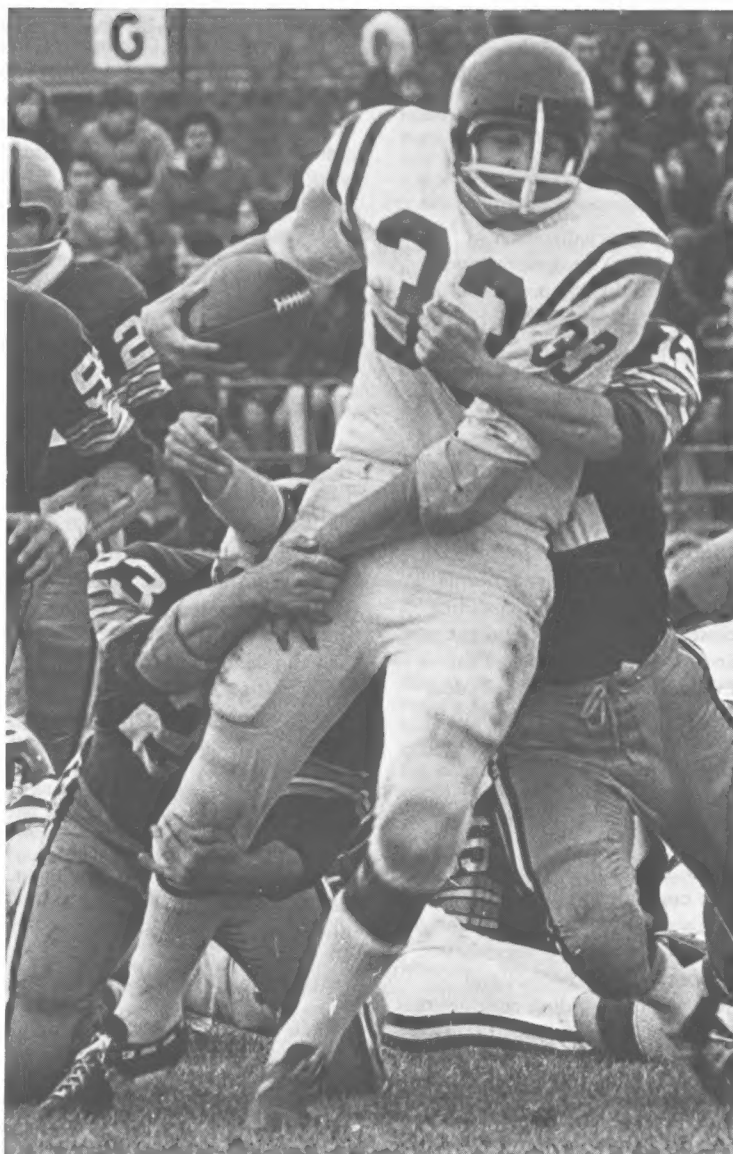

Season tickets are now available for the 1979 Golden Bear Football Season. The season promises to be at least as exciting as last year's, with four games scheduled at home. For the nominal fee of \$10, potential spectators may purchase season tickets that will enable them to view the game against Manitoba on Saturday, 8 September; the contest between the Bears and Saskatchewan on 15 September; the battle against British Columbia on 22 September; and finally, the annual "Alumni Homecoming" special with the Golden Bears pitting brains and brawn against the University of Calgary's Dinosaurs on 6 October. All games will be held in the Varsity Stadium at 2 p.m. Ample parking is available. For the enthusiast, a reminder: The 1979 season will kick off on Saturday, 31 August, when the Golden Bears journey south to return the Dinosaurs to extinction.

People who would like season tickets for the games scheduled at home may obtain them at W1-34 Physical Education Building, or may telephone 432-3365.

Board Building Committee

The regular monthly meeting of the Board Building Committee was held on Thursday, 23 August. The following topics were among those discussed.

Botanic Garden Security
The Committee approved a

Capital Expenditure Authorization
Request for \$54,000 for the installation of a security fence at the University of Alberta Devonian Botanic Garden. Vandalism and animal damage were cited as the consequences of not approving the expenditure.

The fence will likely be in place by November of this year.

Grant to CJSR Radio
Grants to the Students' Union are normally handled by the Board Finance Committee but, as the

A Significant Event

Within a fortnight the University's seventy-third academic year will manifest itself in earnest. It is a flavorful (and often frenetic) time this period of registration, resumption of classes, and sorting out of priorities, and it will be complemented by the installation of M. Horowitz as President and Vice-Chancellor. This infrequent event—Dr. Horowitz is the ninth President of the University—will occur on Thursday, 13 September at 8:30 p.m. in the Northern Alberta Jubilee Auditorium. Everyone is welcome to attend both the installation ceremony and the subsequent reception in Lister Hall. Tickets are available, without charge, through the Office of the Registrar, telephone 432-3723, and at the door.

Dr. Horowitz will be presented by John Schlosser, Chairman of the Board of Governors. Once Mr. Schlosser has administered the oath of office, Chancellor Forest will formally install Dr. Horowitz as President. Following his investiture in the robes of office, he will deliver a fifteen-minute inaugural address and be followed to the microphone by the Chancellor; Alan Earp, President of the Association of Universities and Colleges of Canada (AUCC); and the Hon. James Horsman, Minister of Alberta Advanced Education and Manpower. Each member of the trio will convey greetings to the new president.

Music for the installation will be by The Wind Ensemble under the guidance of Ernest Dalwood.

Colloquy

Take a look at the bicycle racks on campus any fine day from spring thaw to freeze-up, and it is obvious that the University community is one with a strong attachment to the bicycle as a cheap and usually convenient means of daily transportation. From sleek ten-speeds, nervously awaiting the return of their rightful owners to sleepy old clunkers that would be just as much at home on display in our Provincial Museum, they are all tethered side by side, proof of the increasing popularity of this beautifully simple device.

It is likely that the golden age of the bicycle is yet to come, and, when one considers that Alberta cannot long remain an island of extravagant fuel consumption, this modest machine must inevitably take on an important role in our search for diverse transportation solutions. Probably because of the average age of the campus community, as well as financial, health, ecological, and parking considerations, The University of Alberta is already a leader in this city in its realization of the full potential of the bicycle.

Now the time appears to be right for a cycling organization in Edmonton that will assure the bicycle (and its rider) due respect and consideration in keeping with its true value. Such an organization will be able to speak loudly and clearly on behalf of the annually increasing number of commuting cyclists in Edmonton.

While there are already two cycling clubs in this city, each specializes in a form of recreation, one for road and track racing, the other for May and June tours outside the city limits. This leaves the vast majority of Edmonton cyclists (those who regularly cycle for convenience within the city) without a unified voice through which to speak their concerns.

A few who cycle daily to campus would like to see the initiation of the new organization now, so that 1980 might see some improvements on the local cycling scene. The name of the group will likely be the *Edmonton Bicycle Commuters*, and its aims within our city are essentially: to promote the use of the bicycle as a commuting vehicle; to encourage safety in the use of the bicycle; to lobby for improved cycling routes; to seek solutions to general problems associated with bicycle commuting; to organize regular maintenance workshops for cyclists; and to publish and distribute (as a benefit of membership) a quarterly newsletter of interest to commuting cyclists.

Building Committee

continued from page one

CJSR item involves capital equipment, it was rerouted to the Building Committee.

As approved by the Committee, the \$12,577 grant is earmarked for the upgrading of the station's

production and signal-processing equipment in accordance with the long-range plan which would see CJSR converted to an FM open-airwave station. The station is now available on an expanding closed circuit network on campus, and in West Edmonton, East Edmonton, Wetaskiwin, Leduc, Sherwood Park, Fort Saskatchewan, St. Albert, and Stony Plain.

News, sports, and weather reports and a varied music service are offered by CJSR.

HUB Stairwell/Fine Arts Link
The committee expressed approval of a supplementary authorization request for \$37,000 necessary to complete the project and awarded the building contract to Papirnik Construction Ltd. at a contract price of \$411,000.

University Field Station
A proposal by a number of Departments including those of Geography, Botany, Zoology, and Forest Science for the establishment of a field station in the Kootenay Plains region of the province was recently rejected in principle by the Government of Alberta. I. Campbell, Chairman of the Department of Geography, addressed the meeting and stated

that no mechanism for appeal had been set down by the Government. Dr. Campbell felt that the proposal, put together after "an incredible amount of work and effort," had met all guidelines drawn up by the Eastern Slopes Development Project. He reminded the Committee that the station would be used primarily by Departments of the University but that it would be available to other Alberta universities and public colleges.

It was the decision of the Committee to bring the matter before the September meeting of the Board of Governors. □

A Significant Event

continued from page one

The public reception will begin at 9:30 p.m. in the Lister Hall Dining Room and conclude at approximately 11 p.m. Light refreshments will be served.

The last presidential installation, that of H.E. Gunning, took place in September of 1974. □

Amendment to Traffic and Parking Regulations

The following notice has been received from Parking Services:

Article 5.5 of the University of Alberta Traffic and Parking Regulations has been amended as follows:

5.5 Pedestrians

(a) A pedestrian means a person afoot or a person in a wheel chair.

(b) A crosswalk means any part of a roadway at an intersection or elsewhere distinctly indicated for pedestrian crossing by signs or by line or by other markings on the road surface.

(c) The rights of way of pedestrians and vehicles are as defined in The Highway Act of Alberta and the City of Edmonton Traffic Bylaw as amended from time to time.

(d) Notwithstanding the generality of the preceding paragraph, at a place where there is a crosswalk a pedestrian has the right of way over vehicles for the purpose of crossing the roadway within the crosswalk, but nothing in this section relieves a pedestrian from the duty of exercising due care for his own safety.
